24. Please feel free to contribute any other positive comments.

- In general, parents are supportive and want their students to do well. We offer many support programs for at-risk students. Manageable class size with aides offer excellent teacher to student ratio and makes it easier to build strong relationships with our students.
- Our school has many resources to foster an excellent learning experience.
- Our school works hard to address concerns from parents, staff and students
- Our Admin and Staff work well together and trust each other for the betterment of this school. The Staff at SY is very special and although at times we tend to disagree or complain about little things such as discipline or how it is handled the Admin backs the staff 100 percent and we are a better working district.
- The culture of this school is amazing. The kids are provided with a comprehensive curriculum that is both fun and engaging. There is a lot of effort made to be inclusive of all types of learners and emotional dispositions.

25. Please feel free to contribute any other critical comments.

- We lack an elementary science specialist. Too many initiatives that make it difficult to all of them with fidelity. Admin off campus too much. A few parents who are unsupportive are given too much time. Discipline problems in the middle school have increased and are affecting the entire campus.
- Sometimes adults tend to be a bit to vocal about the inherent frustrations that all educators go through.
- Not pleased with the number of conferences and travel meetings board members, admin and teams take annually. It's expensive and can be done every other year, etc.
- I am critical of some of the staff who are not as supportive with students who need more help, love and care.
- none

LCAP and CA Dashboard Local Indicator Data

% of staff that report the school (s) as safe or very safe (Item 11 12)	73.9%
% of staff that report high connectedness with the school (s) (Items 7, 8, 9)	79.7%
