- I appreciate the way the school is receptive to feedback and the way they try to foster collaborative relationships between the administration, teachers, and parents. I'm a huge believer in it taking everyone working together for kids to succeed.
- All school staff continue to be incredibly helpful and consistent with communication, helpfulness and how student expectations. It's evident that teacher expectations are clear enforced. The philosophy and mission of the school is incredibly consistent and I'm grateful.
- school is doing excellent to keep kids safe of Covid-19, i like kids are teaching disciplined
- The school is wonderful and the staff as well

24. Please feel free to contribute any other critical comments.

- My child Failed in three classes and I was not notified or heard any suggestions from teachers of how to help my child.
- I think the school could do a better job communicating school-wide issues to parents. For example, when there was an issue with students vaping and selling tobacco products on campus, parents were never notified. We should have been, considering the way this could impact our children - especially given the fact that the main student is still at the school. I also feel that teachers, one in particular (Coach Martinez), could use a reminder not to share or impose her personal and religious beliefs on students.
- Vaping issue at school that needs to be addressed.
- Just when office inform about any meeting they have to key parents know ahead of time & reminder's.
- Just need to work a lot on the disciplinary system for bullying and sexual harassment.
- No comentarios al.respecto
- No tengo ning3n comentario critico. Podrian tener clases de m3sica
