- When doing yard duty I like the fact that students can come up to us when having problems and that can be resolved in that moment where we don't have to talk to the student twice.
- I believe our school is a safe environment for our students and staff.

- We have great students and parent support as well.

25. Please feel free to contribute any other critical comments.

- Bad behavior seems to be on the rise. There needs to be more consequences for bad behavior. Although PBIS has its place, there still needs to be more consequences. Students don't take teachers/staff seriously and know that they can't get sent home or even be removed for a long period of time for their behaviors.
- I would like to let it be known that the older kids and I'm talking about the fifth graders should understand when a yard duty or a staff member say stop that means stop not to keep going turn around and look at her or him and do it again. That to me means I Don't Care what you say.
- I believe our school TRIES to be supportive and listens to staff but does fall short.
