- All staff I'd very friendly from the greeters outside helping students get inside to the teachers.
- Staff is great, campus is clean.
- School is growing, academically. School officials get students involved in after school programs.
- The school secretary is rude with parents. Many parents have complained but they haven't done anything b 'cause she is the sister in law of the middle school principal. The school treats parents as criminals. We are strictly prohibited to enter the school and as parents we don't know what is going on inside the school. We don't even know if our kids are safe. I will suggest to hire security instead of putting strict restrictions to parents.
- The school has lots of after school activities.
- Mr. Garcia, Mrs. iniguez and Mrs. Menera are very strong teachers and we need more of them!.
- Overall they try
- Ninguno
- Si
- Todos los maestros y el personal administrativo son personas muy preparadas que ayudan mucho a padres y estudiantes.
- Todo esta bien
- Gracias
- Todo bien

36. Please feel free to contribute any other critical comments.

- I feel my child's teacher needs to inform all parents whose children are involved in any physical altercations. Keep a closer eye on each and every student. There is no reason why my child should be coming home with bruises on his body and the teacher not notify me about an incident.
- Teacher and staff are really prideful and self righteous. They take no parent's concerns to mind. They will place student on MTSS program per teacher request, not taking in parent request
- More teacher parent communication. I haven't receive any parent square from my daughter's teacher about her academic progress on a weekly basis or when she doesn't turn in her homework. More communication via parent square on a weekly basis or when there is a concern is needed, not only during conferences.
- I would like to see services for high achieving students. For example, other school district have GATE classes.
- We need to have a strong intervention program or a better one for those students that are under performing. For example, if we have a reading intervention-is it working? How are we measuring this? We need to make sure what we are doing is being effective.
- I feel that if you see kids not getting along you guys should make them get along. Find activities the kids can do as teamwork so they can get past the bullying. The kids look up to the teachers and administrators so helping kids not get bullied and teaching the bully kids that everyone needs to get treated with respect and be friends.
- NUNCA lo toman en cuenta
- Ninguno
